Judge Steven Rhodes
Case # 13-53846

If my pension was cut or taken away -- this is just some of the difficulties and "perhaps" lost of life this would cause Cause.

Medical

High Blood Pressure - that your threats are mostly causing. Doctor visits and other needed medical care. Dental - Vision & others are a necicity for Seniors & retires to have at this time. Do Not fool around & beg or plead waiting for all to just Die.

My monthly Rent
Food
Car repair
Bills
Etc. - are the things we try to take care of from the small pension I now get. You have all or most of the monies that come into your state. Why take the Retirees?
