Pray Then Work

Be Pro Active, Hit First

Step 1

If your water is off, have the neighborhood water person or a friend (not you) obtain a water key & turn it back on **1st**

(If you expect your water to be turned off go to step 2)

Step 2

Purchase ready mix cement from the hardware.

Step 3

Fill lockbox pipe 3/4 full with dry cement mix

Step 4

Add water to top off

Don't use rocks because rocks can be sucked out

Step 5

Apply to the city for work with the water department because they are going to need a lot of help to replace all of those lock box pipes or sit back and watch them scurry all over the city digging up lockboxes
