WHO ARE WE ?

~ SEE REVERSE SIDE ~

Dear Supporter and Potential Supporter:

The *Detroit Active and Retired Employees Association* (DAREA) is an organization comprised of City of Detroit retirees and active employees and concerned citizens. We have objected to the bankruptcy decision of 2014 because our constitutional rights have been violated. We know that Article IX §24 of the State of Michigan Constitution emphatically states that pensions are to be protected.

The Michigan Constitution is the law of the land and is to be entirely abided by and not disregarded or selectively enforced. Retirees have a legal right to their pensions; therefore, we are appealing the judge's decision!

We are exercising our rights and will urge the federal courts to "overturn the bankruptcy decision that discriminately diminished and impaired pensions!"

Prayers are in order.
