

Gayle Robinson six children out of 8 living agreed to a court appointed Guardian Conservator in lue of being prosecuted for stealing \$102,000 from our parents home equity line of credit and our father's life insurance.

June 2014 Mary Rowan attempted three times to remove Gayle Robinson from her home. Which is not allowed for temporary guardian.

At a hearing July 2014 Judge Keith said Gayle will not be removed from her home without a court order from him!

September 30 2014 Gayle Robinson under the suggestion **of now deputy chief the Westland Police**

Randy Thiviager was removed from her home after two hours of harassment from the then Sgt and bookkeeper of Mary Rowan and taken to Botsford ER who refused to hold Gayle without a court order.

(I have the police report)

Gayle was taken to an Inn by two caregivers that work with Mary Rowan. Gayle had to sleep with these two strangers a man and woman in the same room. She the was checked into Botsford psychiatric Ward and held for nine days.

When this writer filed a grievance with the attorney grievance board against Mary Rowan a lawyer she **retaliated against 42 US Code § 12203** asked Judge Keith of Wayne County Probate Court to write a court order to do so on June 17 2015. Judge Keith told Jennifer Harvey the Lawyer of the six siblings to write the order he will sign. Harvey proceeded to write order what the children of Gayle Robinson asked for. Randy Robinson was given a bench warrant that lead to 93 days in Wayne County Jail Criminal. We both were given a no contact order with the mother we supported.(I have the emergency motion for JUNE 17, 2015)

Daughters Kathy Law RN, Linda Robinson Moore, Mary Robinson, and son's Rickie Robinson and Ronald Robinson were told to watch Gayle Robinson 24/7 and in Mary Robinson motion to the court States **it was not to watch Gayle it was to keep Debbie Fox and Randy Robinson from their mother for more than three months. Not as Kathy Law Reported to the VA John Dingle hospital** that Gayle's doctor's said Gayle is under the need to be watch 24/7. Just another lie of many. It was Guardian Mary Rowan that suggested they watch Gayle 24/7.

But this is in the effort to get Gayle Robinson to qualify for federal pension called Aid and Assistance which she does not qualify for. Gayle Is being held in a makeshift room in a hallway at Maple Manor in Wayne, MI called an overflow room. That would mean that the facility is over capacity since December and would be a fire hazard. How many other overflow rooms are there that are full?

This is fraud against the federal government!
