

Gadwell comments Yolanda DelgadoWXYZ-TV Channel 7

April 2 ·

Officer Brian Gadwell is making false, unfounded allegations about a pending investigation into the death of Anthony Clark-Reed. He is inciting racial bias and prejudice and his comments are insensitive and unnecessary. Apparently he is attempting to create an alibi for the senseless death of this young man. He does not honor the badge or uniform of the US Law enforcement bureau and he needs to be removed from service. Our country will never mend their racial divide wounds as long as people like him serve in office.

All the news media please continue to report this story and push the Internal Affairs department to launch a honest thorough investigation. We need all eyes open to this awful epidemic of Police Bullying that is taking peoples lives. They are using their badges, uniforms and guns to act with malice and not follow the oath they took to protect and serve. Please post, tag and broadcast this message. This is not justice.

You can check out his comments on channel 7 news interview video with Pastor Kevin Clark, Anthony's father. Here it is below as well.

MaryJane Still TheSame

That's sad how our police department love to investigate after, instead of solving the current situation and realizing that there's a problem in front of them.

Im VERY FAMILIAR with the system...and unfortunately there are so many moments were situations can be handled differently.... the system approach is very aggressive and id you work in it you no that there arw VERY few individuals who do not come off with that approach..... do i think each situation is meant for such and ending...NO.....BUT thats why you need to watch what and how you do things.....the SYSTEM is designed to bark and bite the loudest and hardest and its really causing more bad then Good..... almost hurting the Good that some officers are doing SMH
