Michael attended New Haven public schools where he would have been going to the 2nd grade. Michael was an exceptional bright young boy. Makiah would have been starting head start in the fall, she enjoyed taking care of her younger brother she was very devoted to his care. Both brother and sister life would seem short to many but those who were touched by them understood that the quality of existence far exceeds the quantity of time in which on lives. Their gentle smiles could melt the hearts of those around them. Although their physical presence is no longer with us they will be forever remembered in our thoughts with our love.

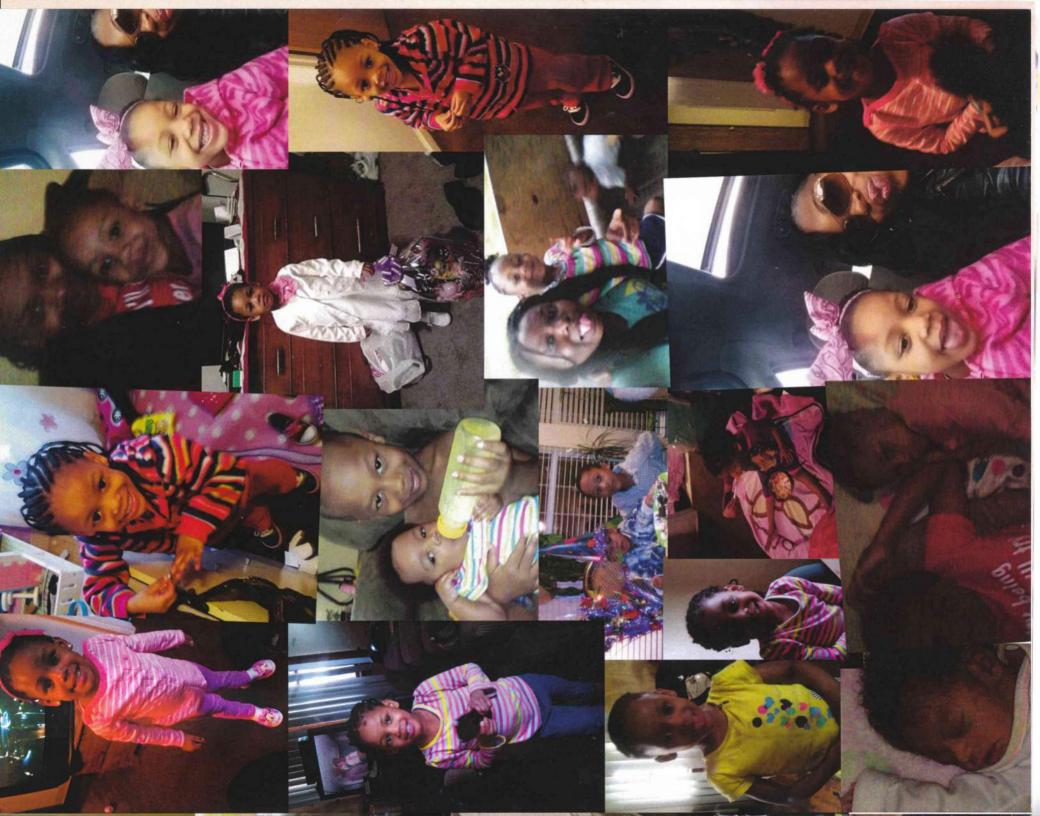

Michael and Makiah loved spending time with each other, they enjoyed music, always was dancing and reading. Could never get them to stop learning, which is a great quality. They always wanted to be around each other. You couldn't get Michael to stop talking about his baby sister and Makiah looked up to her big brother. We were able to create wonderful memories and it has been a privilege to have been part of their lives. With their passing, we will remind others that their lives are "two"; too be celebrated. Although we will miss them every day, especially their winning smiles they will forever remain in our hearts and always cherished in our memories!
